

## Application Form for 'Engaged Team' prize

---

Please ensure you have read the accompanying 'Guidance Notes' before completing this form.

### The lead applicant and team who will receive the prize

Lead applicant - first name	
Lead applicant - last name	
Position held	
Role within the team	
Email address	
Name of team	

### As lead applicant, please briefly describe your role within the team (1000 character limit)

### Please describe the team size and structure (e.g. research group, graduate society) and how working as a team was pivotal to the public engagement achievement(s) being presented. (2000 character limit)

**Provide an overview of the team's engagement activity and/or track record. Please refer to the guidance notes and be sure to highlight how the engagement work described connects audiences with science and innovation on campus. (2500 character limit)**

**Give details of audience(s) reached through the engagement, why they were chosen and any impacts measured - either through feedback or examples. Include efforts to reach under-represented groups, enhance diversity or foster new partnerships. (2000 character limit)**

Describe any reciprocal benefits to the team as a result of the public engagement activity. Include any team building legacy, individual team members' skills and personal development and enhancements to campus science or related work. Highlight any levered funding, spin-out activities or new partnerships achieved through the engagement. **(2000 character limit)**

Describe any positive changes or attitudinal shifts in the way team members work together as a result of undertaking the public engagement activity. **(1200 character limit)**

### Agreement and Signature

By submitting this form I acknowledge having read and accepted the accompanying 'Guidance Notes'. Please return your completed application form to [engage@wgc.org.uk](mailto:engage@wgc.org.uk) with **PRIZE** in the subject field.
